

# Orchard Manager

Pisa Range Orchards is a family business comprising of two orchards located between Cromwell and Wanaka growing export cherries. A hands-on orchard manager with strong horticultural knowledge and tree husbandry skills is required. The manager will report directly to the owner and have day to day responsibility of running the orchards in all aspects from pruning, irrigation, spray programmes and harvest. With 11ha under production the position will suit someone who prefers being outside working with the trees rather than in the office, and must be self-motivated, able to manage orchard operations without supervision.

Candidates must have at least 5 years horticultural experience preferably in cherries although experience in other summer and pip fruit will be considered. A comprehensive understanding of different pruning systems and how to balance fruit yields and quality over time is a key requirement. Horticulture qualifications will be viewed favourably but are not essential.
