

Seasonal Solutions Cooperative Ltd

Appointment of Director

Seasonal Solutions Cooperative (SSCO) is New Zealand's leading employer of RSE workers. The cooperative has been involved with bringing workers in principally from Vanuatu since the inception of the scheme in 2007. Our members are spread across Central Otago, Canterbury and Marlborough and are involved in grape growing, vegetable production and fruit growing. SSCO's role is to ensure that a ready supply of suitable labour is available when needed, particularly during the key pruning and harvest seasons. SSCO's values place great store in the care of all its workers, achieved through having well established teams of advocates whose job it is to ensure the ongoing well-being of our RSE workers.

SSCO is looking to appoint an independent director, ideally based in the Marlborough region. Knowledge of the wine growing industry, while not essential would be desirable, with those candidates also able to demonstrate the qualities and competencies suitable for an appointment of this nature.

SSCO has a Board of seven directors to whom the Chief Executive reports. Meetings are typically held every two months. SSCO has its Head Office in Alexandra in Central Otago with a branch office in Blenheim.

Interested potential candidates should contact the chair (see below) in the first instance from whom further information can be obtained.

Martin Anderson

Chair

Seasonal Solutions Cooperative Ltd
